Weekend with Linda and Bill Pettit

21 – 22 May 2022
in Copenhagen

Finding peace, joy and clarity in the midst of life's challenges and uncertainty

BILL'S INTRODUCTION TO THE WEEKEND

Early in 1983, I was fortunate to meet Dr. George Pransky and soon after Mr. Sydney Banks. At the time I was 40 years of age and had been a physician for nearly 14 years including 10 years of experience in psychiatry. Even so, I had struggled for over 20 years with intermittent episodes of nearly immobilizing depression. It was then that I was introduced to an understanding that the universal Principles of Mind, Consciousness, and Thought that pointed to the connection between our spiritual nature and our psychological and physical nature.

Although, I did not intellectually understand what this meant, almost immediately I experienced fresh hope that I could experience a joyful and loving life regardless of the hardships I had faced, was facing or would face in the future. For the past 39 years I have been a student and sharer of these universal Principles. It has been my experience that doing so, naturally, and effortlessly awakens an incrementally increasing levels of peace, joy and clarity while navigating life's challenges and uncertainty.

During our two days together, I look forward to a light-hearted collaborative venture. My wife and business partner, Linda, will make a guest appearance on Sunday morning to talk about *The Intuitive Way of Love*. As my teacher, Syd Banks said, Love, "makes the impossible... possible."

PRACTICAL MATTERS

DR. WILLIAM (BILL) F. PETTIT, JR, M.D.

Since 1983 Dr. Pettit has been a student and sharer of the Three Principles, presenting at many national and international programs and conferences, and consulting clients, individuals, and organizations – both locally and worldwide. Dr. Pettit was mentored personally for over 26 years by Sydney Banks. He has shared the Three Universal Principles of Mind, Consciousness and Thought as the essence of his psychiatric practice since 1983.

DR. LINDA SANDEL PETTIT

Linda uplifts the intuitive creativity, the hearts, and words, spoken and written, of helping professionals through her work as The Healer's Muse. She inspires helpers to follow the Intuitive Way of Love, a perfect guide that unfolds a wild, wonder-full, free life. She holds masters and doctoral degrees in counseling psychology and has shared the Three Principles for 17 years. Bill and his wife, Linda, now live in Phoenix, Arizona, where Bill has retired from his practice of psychiatry and now devotes his time and energy sharing the Three Principles through as many avenues as possible.
